MEMORANDUM FOR: General Vernon A. Walters, Acting DCI
THROUGH : George A. Carver, Jr., D/DCI/NIO
SUBJECT : Revision of Key Intelligence Question #67 on Narcotics

1. Based on discussions with the working level experts, it is recommended that the Key Intelligence Question #67 be reworded. A suggested revision is as follows:

67. How effective are the anti-narcotics programs of the countries in categories 1 and 2 designated by the Cabinet Committee on International Narcotics Control as of priority interest to the U.S. government's international narcotics control program?

Include the willingness of these governments to cooperate with U.S. efforts to expose and prosecute producers, traffickers, and their collaborators.

This would replace the present language which reads:

2. The reason for this revision is that the KIQ as presently worded does not include the priority countries involved in narcotics, and, more important, since this is a shifting target, some latitude has to be allowed for additions or deletions from the countries of interest.

3. In the KIQ Strategy Report on this subject we will indicate which countries presently fall into categories 1 and 2 [redacted] and we will note that consideration is being given to adding [redacted] and other countries. We will also

note that countries may be added to or dropped from these categories as circumstances indicate.

4. If this change is acceptable to you we will take the necessary steps to notify the USIB principals.
